

Dear Chairman Powell and Commissioners,

I am very concerned about the damage being done to our country as a result of the deteriorated state of political advertisement. I feel confident that it drives deep, irreparable wedges between different groups when all of the political discourse is so very negative. It does nothing to offer hope to citizens, it only makes us mistrust and despise politicians in general. Please do what is possible to clean up the type of ads that are produced for TV and radio and print so that the real issues, solutions, and honest comparisons can be made. Give us some reason to have hope for the future, and confidence in our leaders, and so we can make informed decisions instead of just voting for the least disgusting option. It is not working the way it is now!

Thank you.

Sincerely,

Joan Hitchner
